

Sports grant planned expenditure 2017/2018

Grant received to date- £3231

This year we are working with Embrace to provide quality sports provision across the school. We have two qualified PE coaches working with us this year to provide specialist sessions to small groups of pupils.

Mr Pearce our PE co-ordinator has set out a timetable of CPD sessions for our Teaching staff to ensure sustainability for high quality P.E is an important part of the premium we receive. Therefore, we put considerable time into developing those who deliver P.E in the school. Teachers, teaching assistants and coach's work together to improve confidence and quality of teaching during all P.E lessons. Team teaching is a big part of this as well as inviting professionals into the school to deliver courses. Each class received extra P.E lessons last year, the focus of these lessons being upskilling teaching staff. Teachers also attended a dance course to improve the quality of teaching within the school.

Children who show significant talent are invited to take part in the Gifted and Talented workshops run by coaches on a weekly basis. Children who have obvious talent or promise in a particular area or event are invited to take part in other sports and games to give them a well-rounded and balanced view of P.E and School Sport.

We also run a change 4 life club.

We also provide three after school clubs to both Key Stage One and Two, the sports provided in these clubs change on a termly basis.

Expenditure total=£7292.50

We are also lucky enough to have an in house qualified football coach who delivers an extremely popular after school football club to Key Stage one pupils. The pupils who attend this club change on a termly basis therefore, giving more pupils the chance to gain experience in this area of sport.

Expenditure total= £632

Our Key Stage two pupils are also entered into the local sports festival which allows them to compete against other schools in the County.

Expenditure total= £648 (Based on 108 pupils at a cost of £6 each)

Participation and attainment in Physical Education:

At Crowmoor we encourage all children to be as active as possible. We believe that there are strong links between learning and being active. It is for this reason that we strive to achieve a minimum standard of School Games Gold each academic year. In order to achieve this goal we provide children with the opportunities to participate in competitive sport. We

have shown our commitment to improving the participation and attainment through attaining the Gold mark for the last 3 academic years.

Each year, in addition to the 2 hours of P.E. per week that every child receives, we participate in a minimum of:

- 7 intra-school competitions
- 6 inter-school competitions
- 1 "B team" event
- 5 taster sessions run by local clubs and organisations

As a result of this increased participation, we have seen an increase in participation in extra-curricular clubs, school-club links and success at School Games events.

The children of Crowmoor have improved their physical literacy over the past three years and the school has recently adopted a new assessment system to track Key Stage 1 children through their development of fundamental movement skills, the building blocks to all school sport.
