

# Crowmoor Primary School Drivers

## Aspiration

We want all of our children to aspire towards greatness. We will work to broaden their horizons, expanding their knowledge of the world by nurturing their interests as well as encouraging fearlessness of what is new or unknown by creating exciting, inspiring opportunities.

## Healthy Lifestyle

We want all of our children to be able to talk openly about mental and physical health. Understanding how, in an ever-changing world, we can manage ourselves as we experience external factors and how these will look different for everyone.

## Communication

We want all of our children to become effective communicators, demonstrating a wide vocabulary and good listening skills as well as being confident readers and writers. Children should be able to communicate in a variety of ways to get their message across powerfully and politely.

## Knowledge of the World

We want all of our children to recognise that you can always make a difference: to our community, country and globally. By broadening our understanding of our local area, country, continent and planet, our children will develop a responsibility for our environment. They will understand how we can support, influence and change it for the future.

## Community

We want our children to develop a sense of pride in themselves and respect for others. We believe they need to have a highly developed emotional understanding, excellent manners and outstanding behaviours in order to create positive relationships. We believe in the power of the school community to change and enhance lives.
