

Crowmoor Primary School  
Curriculum Drivers  
Subject: Reading

Aspiration

Children develop a love of reading through inclusive, diverse texts. They understand and use a range of vocabulary in every lesson. Every pupil is valued and encouraged to read a range of genres through class texts and home reading books. We also ensure children develop an understanding of how reading is linked to future jobs so they aspire to use the skills they have learned in their future.

Healthy Lifestyle

Children can choose from a range of non-fiction books to learn about healthy lifestyles. They have opportunities to read outside in good weather.

Communication

Our curriculum is language-rich and through the use of high-quality texts, children are given opportunities to practise and use new vocabulary with confidence. Children are encouraged to communicate effectively through developing their speaking and listening skills. They are also given opportunities to read aloud, perform poetry and to take part in productions.

Knowledge of the World

Children's love of reading extends beyond the classroom, allowing them to build on their skills independently through a real wonder and thirst for knowledge. They have access to our school library and termly changing topic books which provides our children with a diverse range of reading materials. Children also read texts that are linked to current events in the form of a newspaper report.

Community

We want our children to develop a sense of pride in themselves and respect for others. Children will have the literacy skills to take an active role in community life. We believe in the power of the school community to change and enhance lives. We invite parents and carers to work with us to support their children
